EDUCATION

Dayananda Sagar College of Engineering	CGPA: 9.27
Bachelor of Engineering - Computer Science and Engineering	2023-Present
Vision PU College	Percentage: 95.67
Pre-University	2021-2023
ITI Central School	Percentage: 95.00
Secondary School Leaving Certificate	2020-2021

TECHNICAL SKILLS

Languages: C, C++, Python, Java, JavaScript
Web Technologies: HTML, CSS, Bootstrap, Tailwind CSS
Databases: MySQL, MongoDB
Cloud & DevOps: AWS, Docker, Kubernetes, CI/CD Pipelines, Cloud Deployment & Monitoring
Frame Works and Libraries: React.js, Angular, Flutter, Matplotlib, Flask
Software and Tools: Git, GitHub, PowerBI, Figma, Canva

PROJECTS

GRADEX – UNIVERSITY GRADING SYSTEM | MERN STACK

- Developed a full-stack grading web application with separate dashboards for admin, faculty, and students, enabling secure role-based access.
- Implemented authentication, course management workflows, and automated grade calculation using dynamic REST APIs for real-time data handling.
- Designed a responsive and intuitive UI ensuring smooth interaction with academic data across all user roles.

SATELLITE TRACKER APP | ANDROID, APIS

- Developing an Android application to track live satellite trajectories using integrated APIs with real-time data fetching and visualization.
- Implemented interactive map-based tracking to display satellite positions, orbits, and movement patterns dynamically.
- Provides users with accurate, real-time insights into satellite paths for enhanced spatial understanding.

SKILLBRIDGE – AI SKILL GAP ANALYZER | REACT, PYTHON FLASK, CLAUDE API, DOCKER, KUBERNETES

- Built a full-stack AI-powered career tool that parses uploaded resumes using NLP, extracts skills, and compares them against role-specific skill databases to generate a percentage match score and personalised gap report.
- Integrated the Claude API to deliver dynamic learning recommendations — including curated courses, projects, and certifications — for each missing skill, reducing manual career-guidance effort by design.
- Containerised the application using Docker and orchestrated multi-replica deployments on Kubernetes.
- Deployed the backend on Render with a cold-start wake strategy on page load; structured the frontend across modular HTML pages (upload, analysis, dashboard, recommendations) with Chart.js radar visualisations for skill coverage.

CERTIFICATION

- Google Cloud Computing Foundations** – Google Skills Boost: Completed certification covering core cloud concepts including infrastructure, cloud engineering, and cloud-native application development.
- Neural Networks for Computer Vision and Natural Language Processing [NPTEL]** – Currently pursuing certification covering deep learning techniques for CV and NLP applications.
- Ethical Hacking and Penetration Testing (Kali Linux)** – Infosys Springboard: Learned cybersecurity fundamentals, penetration testing techniques, and vulnerability assessment using Kali Linux.
- Natural Language Processing (NLP) and Text Mining** – Simplilearn SkillUp: Completed training in NLP techniques, text preprocessing, and basic machine learning applications in text analysis.
- Complete Guide to NLP Neuro Linguistic Programming** – Cursa: Gained foundational knowledge in NLP concepts and communication techniques.
- C & C++ Programming** – Scaler Topics: Completed foundational training in C and C++, covering syntax, problem-solving, OOP concepts, and STL for efficient programming.

EXTRA-CURRICULAR

LEAD – AKIRA CULTURAL CLUB (CSE), DSCE

- Led a team of 40 members in organizing multiple tech and cultural events, engaging 250+ participants across the department.
- Spearheaded 8+ tech and cultural events including quizzes, case challenges, and interactive competitions.
- Fostered cultural awareness and technical exposure, enhancing students’ skills and promoting cross-domain learning within the department.

COORDINATOR – KANNADA SAHITHYA SANGHA & LITERARY SOCIETY, DSCE

- Led a team of 50+ members in organizing literary contests, debates, and creative writing events during intra- and inter-college fests.
- Conducted summer enrichment camps focused on public speaking, storytelling, and language skills, benefiting 100+ students from local communities.

GRAPHIC DESIGNER – RECURZIVE V2 HACKATHON, BYTEZYNC TECH CLUB, DSCE

- Designed and managed all branding and promotional creatives for a 24-hour hackathon, ensuring strong visual identity and engagement.
- Contributed to successful execution of the event with participation from 400+ attendees, enhancing outreach and event visibility.

ACHIEVEMENTS

- **Winner** (1st place) of the **AITHON’26 Ideathon** (EdTech Track) for developing Guru Saathi, an AI-powered teacher copilot enabling lesson planning, automated assessments, multilingual content, and DIKSHA platform integration.
- **Elite Awardee – NPTEL Certification** in Neural Networks for Computer Vision and Natural Language Processing with 93% score from IIT Guwahati via SWAYAM.
- **Winner** (1st place) in the **Rangasourabha State-Level Theatre Review Writing Competition** (Government of Karnataka) for excellence in analytical writing and critical evaluation of theatre performances.
